Release Permits for Pharmaceuticals, Industrials, Value Added Proteins for Human Consumption, or for Phytoremediation

Last Modified:

NOTE: This list reflects Release Permits received by APHIS, including pending and not approved.

Supplemental permit conditions are those imposed in addition to the requirements described in 7 CFR 340 and the notice entitled "Field Testing of Plants Engineered To Produce Pharmaceutical and Industrial Compounds," published March 10, 2003, in the Federal Register 68 (46):11337-11340.

Notice of Inspection Findings are for permits effective in 2010 and redacted to remove sensitive or private information.
