Export Animal Products to Czech Republic

Last Modified:

Animal Product Export Requirements

- Select a Country -

[Go](#)

This country is a member state of the European Union. In addition to any commodity-specific information listed on this page, the European Union has harmonized requirements for certain animal-origin products. Visit [Export Animal Products to the European Union](#) to learn more about harmonized protocols.

Importers in the Czech Republic with questions about Czech import requirements may contact the Czech government (we recommend by email) with details about the proposed import:

State Veterinary Administration of the Czech Republic
Department of External Affairs and Import and Export Control
Slezska 100/7
120 00 Prague 2
Czech Republic
phone +420-227-010-180
e-mail: <mailto:int@svscr.cz>

Language Requirement for Certificates

Most EU member countries require health certificates to be bilingual, in the languages of both the exporting country and the importing country. The government of the Czech Republic has indicated (for shipments where the port of entry into the EU and the destination of the shipment is in the Czech Republic) that if certificates are in English - they do not have to be bilingual.

As always, the exporter should have their importer confirm prior to shipment that the endorsed certificate meets all requirements.

Commodity Specific Information

Feeds for ornamental fish and tortoises derived from aquatic invertebrates
