NVAP Reference Guide: National Animal Health Emergency Management System

Last Modified:
Expand All

NVAP Reference Guide: Table of Contents

Preface

Introduction

Control and Eradication

- Brucellosis
- Johne’s Disease
- Pseudorabies (PRV)
- Tuberculosis
- Transmissible Spongiform Encephalopathies
- Scrapie
- Bovine Spongiform Encephalopathy (BSE)
- Chronic Wasting Disease (CWD)

Poultry

- National Poultry Improvement Plan (NPIP)
- Avian Influenza (AI)
- Exotic Newcastle disease (END)
- Equine Disease

Aquatic Animal

- Aquatic Animal National Health Plan
- Aquatic Animal Health Activities

Animal Health Emergency Management

- Animal Health Emergency Management
- Emergency Response Structure
- National Response Framework (NRF)
- National Incident Management System (NIMS)
- National Animal Health Emergency Management System (NAHEMS)
- Foreign Animal Disease Preparedness and Response Plan (FAD PReP)
- FAD Recognition and Initial Response
- National Animal Health Emergency Response Corps (NAHERC)
- Notifiable Diseases and Conditions
- WOAH and International Standards
- Cleaning and Disinfection
    - Importance of Cleaning & Disinfection
    - Cleaning
    - Disinfection
    - Regulation of Disinfectants
    - Safety
- Disease Surveillance
- Laboratory Submissions

Animal Movement

- Interstate Regulations
- Interstate Movement of Cattle, Horses, Swine, Sheep and Goats
- Issuing Interstate Animal Movement Documents
- International Animal Movement
- Issuing International Health Certificates (IHCs) for Live Animal Movement
- Common Problems Observed on Certificates for Live Animal Movement

Animal Identification

- Animal Identification
- Cattle Identification
- Swine Identification
- Equine Identification
- Sheep and Goat Identification
- Fowl Identification
- Compliance and Regulations

Appendix

- A: 9 CFR PARTS 160, 161, and 162
- B: APHIS VS District Offices
- C: State Animal Health Officials
- D: Forms
- E: Other Organizational Information with Contact Points
- F: Web Sites
- G: Equine Teeth and Aging

A Federal-, State-, and industry-coordinated emergency response system established in 1996, the National Animal Health Emergency Management System (NAHEMS) is an integrated system for dealing with animal health incidents in the United States, such as the incursion of a foreign animal disease or a natural disaster. It encompasses the four tenets of emergency management: prevention, preparedness, response, and recovery. One cornerstone of the NAHEMS is the response guidelines series. The NAHEMS Guidelines are designed for use by official response personnel in the event of a major animal health emergency. They provide information that may be integrated into the preparedness plans of other Federal, State and local agencies, Tribes, and additional groups involved in animal health emergency management activities.
