# APHIS in Action

Last Modified:

Every day, APHIS works to protect the health and value of America's agricultural and natural resources. These articles tell a story about how we are tackling some of the biggest issues facing U.S. agriculture and natural resources today.

## Featured

### [APHIS Tick Riders Take on New Threat: New World Screwworm](#)

For over a century, a dedicated group of mounted patrol inspectors—known informally as **Tick Riders**—has patrolled the southern U.S. border. Their mission: protect U.S. cattle from the [cattle fever tick](#), a parasite that causes severe blood loss, weakness, and can transmit deadly diseases like babesiosis and anaplasmosis.

## What You Need to Know Before Shipping and Receiving Agricultural Items

---

People ship and receive packages using express courier companies—like FedEx, UPS, DHL, and others—all the time. But when the package includes an agricultural item, things can get dangerous for U.S agriculture and natural resources.

## [Ohio Asian Longhorned Beetle Eradication Program Gifts Residents Free Trees](#)

Clermont County residents have been heavily impacted by the ALB, which kills trees it attacks and caused the removal of over 96,000 trees. APHIS ALB employees saw an opportunity to make a difference and started a Tree Giveaway Program.
