# Wildlife Services

Last Modified:

Wildlife are one of America's most valued public resources. Yet in the dynamic landscape we share, wildlife-related problems—disease threats, livestock predation, crop losses, property damage, and more—are common. Wildlife Services lead our Nation's efforts to manage these problems. Our programs and research find innovative solutions that protect people, agriculture, and wildlife so all of us can coexist.

Learn more about [our organization](#) and the [authorities](#) under which we work, including our [program directives](#).

## Priorities

### [Managing Wildlife Damage](#)

### [Conducting Wildlife Research](#)

We study native and invasive wildlife and use a multidisciplinary approach to find solutions to reduce or eliminate wildlife disease and damage.

### [Explore Research](#)

## Delivering National Programs

We conduct national programs for airport hazards management, disease
