Name and Address of Facility of Origin:

Name and Address of Destination Facility:

Certification Statements:

The undersigned official veterinarian, certify that the above consignment of laboratory SPF animals is intended for scientific research and satisfies the following requirements:

1. The SPF animals for export were born and raised since births in the indicated facility and have remained isolated from animals not of equivalent health status. The SPF animals have not been inoculated with any pathogens of infectious disease and/or parasites.
2. During the 12 months prior to export, there has been no clinical or other evidence of rabies, leptospirosis, tularemia, monkey pox, plague, lymphocytic choriomeningitis virus, hemorrhagic fever with renal syndrome, hantavirus pulmonary syndrome and ectromelia or infectious agents in the facility.
3. The facility meets the industry standards of SPF animals of the export country. Feeding control and sanitary control are carried out under the supervision of an accredited veterinarian. Surveillances and examinations were conducted periodically in the facility to confirm the animals comply with the industry standards of SPF animals of the exporting country.
4. Within the 24 hours prior to shipment, the animals for export will be examined clinically by an official veterinarian or accredited veterinarian and only exported if found to be free from evidence of infectious and contagious disease and parasites. A statement regarding the inspection will be attached.
5. Containers, packaging, feeds, padding and water used during the transportation are disinfected and meet the requirements of SPF animals.

This certificate is valid for 30 day(s) from the date of accredited veterinarian signature.
