KEY:

"Req" = pre-export testing/ freedom required for "susceptible" species

"Req†" = pre-export testing/ freedom required for "susceptible" species; pre-export testing/ freedom only required if "vector" species cohabitates/ shares water with a "susceptible" species

This table is based off of the following EU regulations/guidances:

Commission Implementing Regulation (EU) 2018/1882 (for pathogens in green)

Commission Implementing Decision (EU) 2025/403 (for pathogens in blue)

Commission Implementing Regulation (EU) 2021/620 and Commission Implementing Decision (EU) 2021/260 (for EU Member State's health status)
