2026-APHIS-02747-F	(b) (6)		<p>I am writing to formally request clarification and documentation regarding an aerial wildlife control operation conducted over my property on January 24, 2026, between approximately 10:15-10:45 AM near Columbia, Alabama, involving aircraft N91637.</p> <p>During this time, the helicopter operated at low altitude and repeatedly circled and maneuvered over and along our private property for an extended period. The aircraft flew directly over three established hunting blinds, one of which was actively in use at the time, creating a serious and unacceptable safety concern. We attempted to signal the aircraft by waving to indicate that it should move away from our property; however, the operation continued. Because we were unaware of the nature of the activity and were concerned for safety, we contacted the Sheriff's Department. At that time, we were advised that it was a military operation associated with Fort Rucker, which we accepted in good faith. Only after further research did we later determine that this was, in fact, a USDA Wildlife Services operation and not a military exercise. We were not notified in advance, and we did not provide consent for any aerial operations, hunting, or wildlife management activity on our land. We are not enrolled in any USDA Wildlife Services programs, agreements, or cooperative management initiatives.</p> <p>Even more concerning, our home is located on this property. We actively manage and hunt this land and have made significant investments in wildlife habitat, food plots, hog traps, hunting infrastructure, stocked pond, and long-term property improvements. The operation disrupted our workday, interfered with our use and enjoyment of our property, and significantly disturbed wildlife. We also observed what appeared to be an armed individual onboard, consistent with active hunting operations.</p> <p>Beyond the operational and safety concerns, the experience itself was extremely disturbing. We felt violated and invaded upon, with complete disregard for our privacy, safety, and property rights. Having a helicopter repeatedly hovering and maneuvering over our land without notice, explanation, or consent created a profound sense of vulnerability in our own home.</p> <p>We are strong supporters of our government and of responsible wildlife management programs. We respect the important work performed by federal agencies and those who serve in them. However, this incident was completely unacceptable. There is nothing that can be said that makes this situation appropriate or justified.</p> <p>We have retained video and photographic documentation of this incident, including clear identification of the aircraft, flight patterns, and operational behavior and clearly indicate it was operating above our property very low.</p> <p>To ensure full understanding and proper documentation, we respectfully request the following information:</p> <p>The specific authorization under which this operation was conducted and what speci (Date Range for Record Search: From 12/31/2025 To 02/08/2026)</p>	02/09/2026

2026-APHIS-02881-F	Cotsirilos, Teresa	Food and Environment Reporting Network	<p>February 13, 2026</p> <p>I am a staff writer at the Food and Environment Reporting Network, a nonprofit newsroom, where I cover US food systems. Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request a comprehensive list of: all ELAP (Emergency Assistance for Livestock, Honeybees, and Farm-Raised Fish Program) and HPAI (highly pathogenic avian influenza) indemnity payments made to dairy and poultry operations from January 1, 2024, to the present. This list should include: 1) Recipient name/Entity, 2) Date of payment, 3) Amount, 4) State/County, and 5) The specific subtype (ex: H5N1) for which the claim was filed. Through this request, I am gathering information on industrial dairies and poultry farms that have received USDA indemnity payments repeatedly—without addressing the health and safety issues that fueled their H5N1 outbreaks in the first place. It is of current interest to the public because my reporting suggests industrial dairies and poultry farms may be fueling a potential pandemic through unsafe, unsanitary practices they have not been held accountable for. I would like to receive the information electronically, preferably as PDFs, or, if the information is in spreadsheet form, as .xlsx or .csv files. I would also be happy to receive paper copies if electronic transmission is not possible. You can send any paper copies to the following address:</p> <p>2920 Harper St Berkeley, CA 94703.</p> <p>As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. This information is being sought for dissemination to the general public. Release of the information is in the public interest because it will contribute significantly to public understanding of the operations or activities of this abusive industry. I further request expedited processing of this request pursuant to 5 U.S.C. § 552(a)(6)(E). There is a 'compelling need' for this information because it concerns a matter of urgent public health. My reporting suggests that H5N1 avian influenza outbreaks in dairy and farmworker communities may be more extensive than publicly available data suggests, and may also be ongoing to an extent the public is unaware of. The indemnity payment information I am requesting will help me assess if that's true. Please also waive any applicable fees.</p> <p>If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I request that you release all reasonably segregable portions of otherwise exempt material. If you determine that any portion of the requested records is exempt, please justify each redaction. I reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. I would appreciate your communicating with me by email or telephone, rather than by mail.</p> <p>Thank you! (Date Range for Record Search: From 01/01/2024 To 02/13/2026)</p>	02/17/2026
