Veterinary Health Certificate for Export of
Small Ruminant (Sheep and Goat) Semen from the United States of America to Indonesia

Veterinary Authority	Date Of Issue	Certificate Number
UNITED STATES DEPARTMENT OF AGRICULTURE		

Certification Statements:

I, the undersigned USDA Accredited Veterinarian, certify to the following statements:

1. The United States is officially recognized to have free from Foot-and-Mouth Disease (FMD) without vaccination.

2. The United States is free from Sheep and Goat Pox, Peste des Petits Ruminants (PPR), Contagious Caprine Pleuropneumonia (CCPP), and Rift Valley Fever (RVF).

3. The donor animals were born and raised in the United States or were legally imported and has been resident in the United States during the 60 (sixty) days prior to semen collection.

4. The donor animals originate from premises officially free of Caprine/Ovine Brucellosis (Brucella melitensis) for the last 12 (twelve) months prior to collection of the semen.

5. The donor animals originated from premises free of clinical cases of Scrapie, Maedi Visna, Caprine Arthritis/Encephalitis, Bluetongue, Ovine Epididymitis, Peste des Petits Ruminants, Contagious Caprine Pleuropneumonia, Contagious agalactia, and Tuberculosis for the last 12 (twelve) months prior to collection of the semen.

6. The donor animals originated from premises free of clinical cases of Paratuberculosis (Johne's diseases) for the last 2 (two) years prior to collection of the semen.

7. The donor animals have not been used for natural services for at least 30 (thirty) days prior to entry into the pre-entry isolation facility and for the entirety of their residency in the Artificial Insemination Center (AIC).

8. The donor animals were healthy and free from any clinical evidence of infectious or communicable disease at the time of collection of the semen.

9. The AIC is approved by the USDA and is under the direct supervision of a USDA accredited veterinarian and meets the WOAH-TAHC Chapter 4.6. General hygiene in semen collection and processing centers and Chapter 4.7. Collection and processing of bovine, small ruminant, and porcine semen.

10. The semen was collected, processed, and stored in accordance with the WOAH- TAHC Chapter 4.6. General hygiene in semen collection and processing centers and Chapter 4.7. Collection and processing of bovine, small ruminant, and porcine semen.

11. The semen has been diluted using diluents that do not contain pathogenic organism and to which antibiotics have been added in accordance with WOAH-TAHC recommendations. The names of the antibiotics added, and their concentration should be stated in the international veterinary certificate.

Veterinary Authority	Date Of Issue	Certificate Number
UNITED STATES DEPARTMENT OF AGRICULTURE		

Certification Statements:

12. The semen was frozen for the last 30 days prior to shipment.

13. The donor animals and teasers were kept in a pre-entry isolation facility for at least 28 (twenty-eight) days under the supervision of the semen center accredited veterinarian, prior to entering the semen collection facilities.

14. Donors were tested negative a minimum of 21 (twenty-one) days after entering the pre-entry isolation facility, for the following diseases:

a. Brucellosis (Brucella abortus)
b. Ovine Epididymitis (Brucella ovis)
c. Maedi Visna (for sheep) and Caprine Arthritis/Encephalitis (for goats)
d. Bluetongue (BTV)
e. Tuberculosis (Mycobacterium bovis) for goats

15. Donors and teasers residents in the semen collection facilities were tested negative at least annually for the following diseases:

a. Brucellosis
b. Ovine Epididymitis
c. Maedi Visna and/or Caprine Arthritis/Encephalitis
d. Tuberculosis for goats
e. Bluetongue (BTV)

16. Semen will be shipped in a new or cleaned and disinfected or container sterilized before use, with new liquid nitrogen under the supervision of a USDA accredited veterinarian.

17. The semen straws are individually identified with donor animals and collection identification codes.

18. The shipping containers will be sealed under the direction of the USDA accredited veterinarian prior to transportation to the port of embarkation.
